

Mozilla paspausti nuostatų mygtuką ir pasirinkti **Options**.

Paspausti **Privacy**

Paspausti **clear your recent history (arba Išvalyti naršymo ...)**

# Privacy

## Tracking

Use Tracking Protection in Private Windows [Learn more](#)

You can also [manage your Do Not Track settings](#).

## History

Firefox will:

Firefox will remember your browsing, download, form and search history.

You may want to [clear your recent history](#), or [remove individual items](#).

## Location Bar

When using the location bar, suggest:

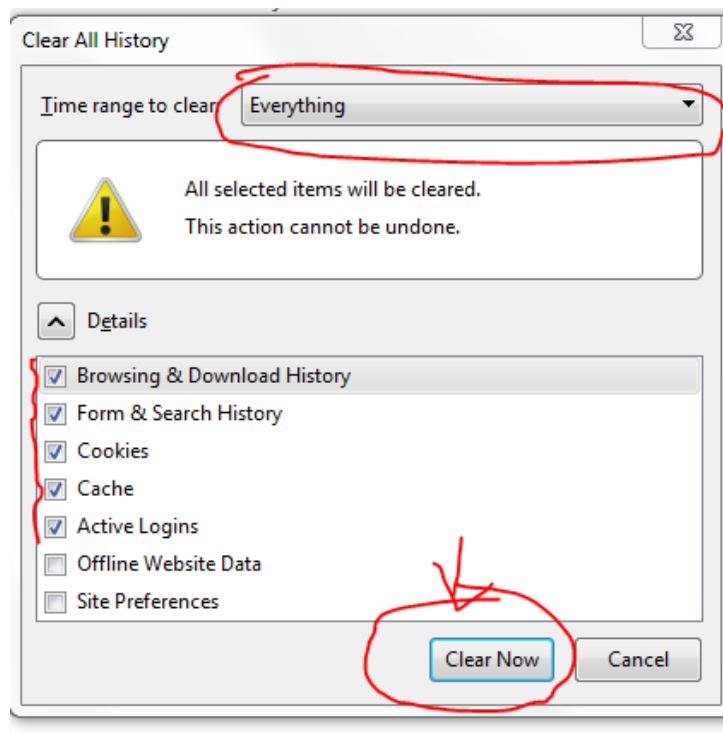

History

Bookmarks

Open tabs

[Change preferences for search engine suggestions...](#)

Pasirinkti ilgiausią laiką, paprastai jis būna sąrašo gale, pažymėti ką valyti ir paspausti Valyti.

Pasirinkti **Advanced** dalį ir išvalyti „kešą“ - Cached Web content : paspausti **valyti**.

The image shows the 'Advanced' settings page in Firefox, specifically the 'Network' tab. The left sidebar contains menu items: General, Search, Content, Applications, Privacy, Security, Sync, and Advanced (which is circled in red). The main content area has tabs for General, Data Choices, Network (selected), Update, and Certificates. Under the 'Network' tab, there are three sections: 'Connection' with a 'Settings...' button; 'Cached Web Content' with a 'Clear Now' button circled in red and an arrow pointing to it; and 'Offline Web Content and User Data' with 'Clear Now' and 'Exceptions...' buttons. The 'Cached Web Content' section indicates that the cache is currently using 14.1 MB of disk space and offers an option to override automatic cache management and set a limit of 350 MB.
